

Bryterdays

Don't plan, pre-plan

The Problem

The brain has a primitive tendency to see **discomfort** as something to be protected from and to **keep away**.

Daily-basis **tasks and activities** being time and effort **consuming** result in a frustrating **procrastination**.

People see themselves as **lazy and powerless** while it's normal and legitimate.

Value Proposition

What if the community could help me out
to build and pre-plan through...

Collective intelligence, from which
experience and knowledge are
shared on planning events

**Time
Management**

A single **platform** containing
plannings on **any subject**

**Feel
Powerful**

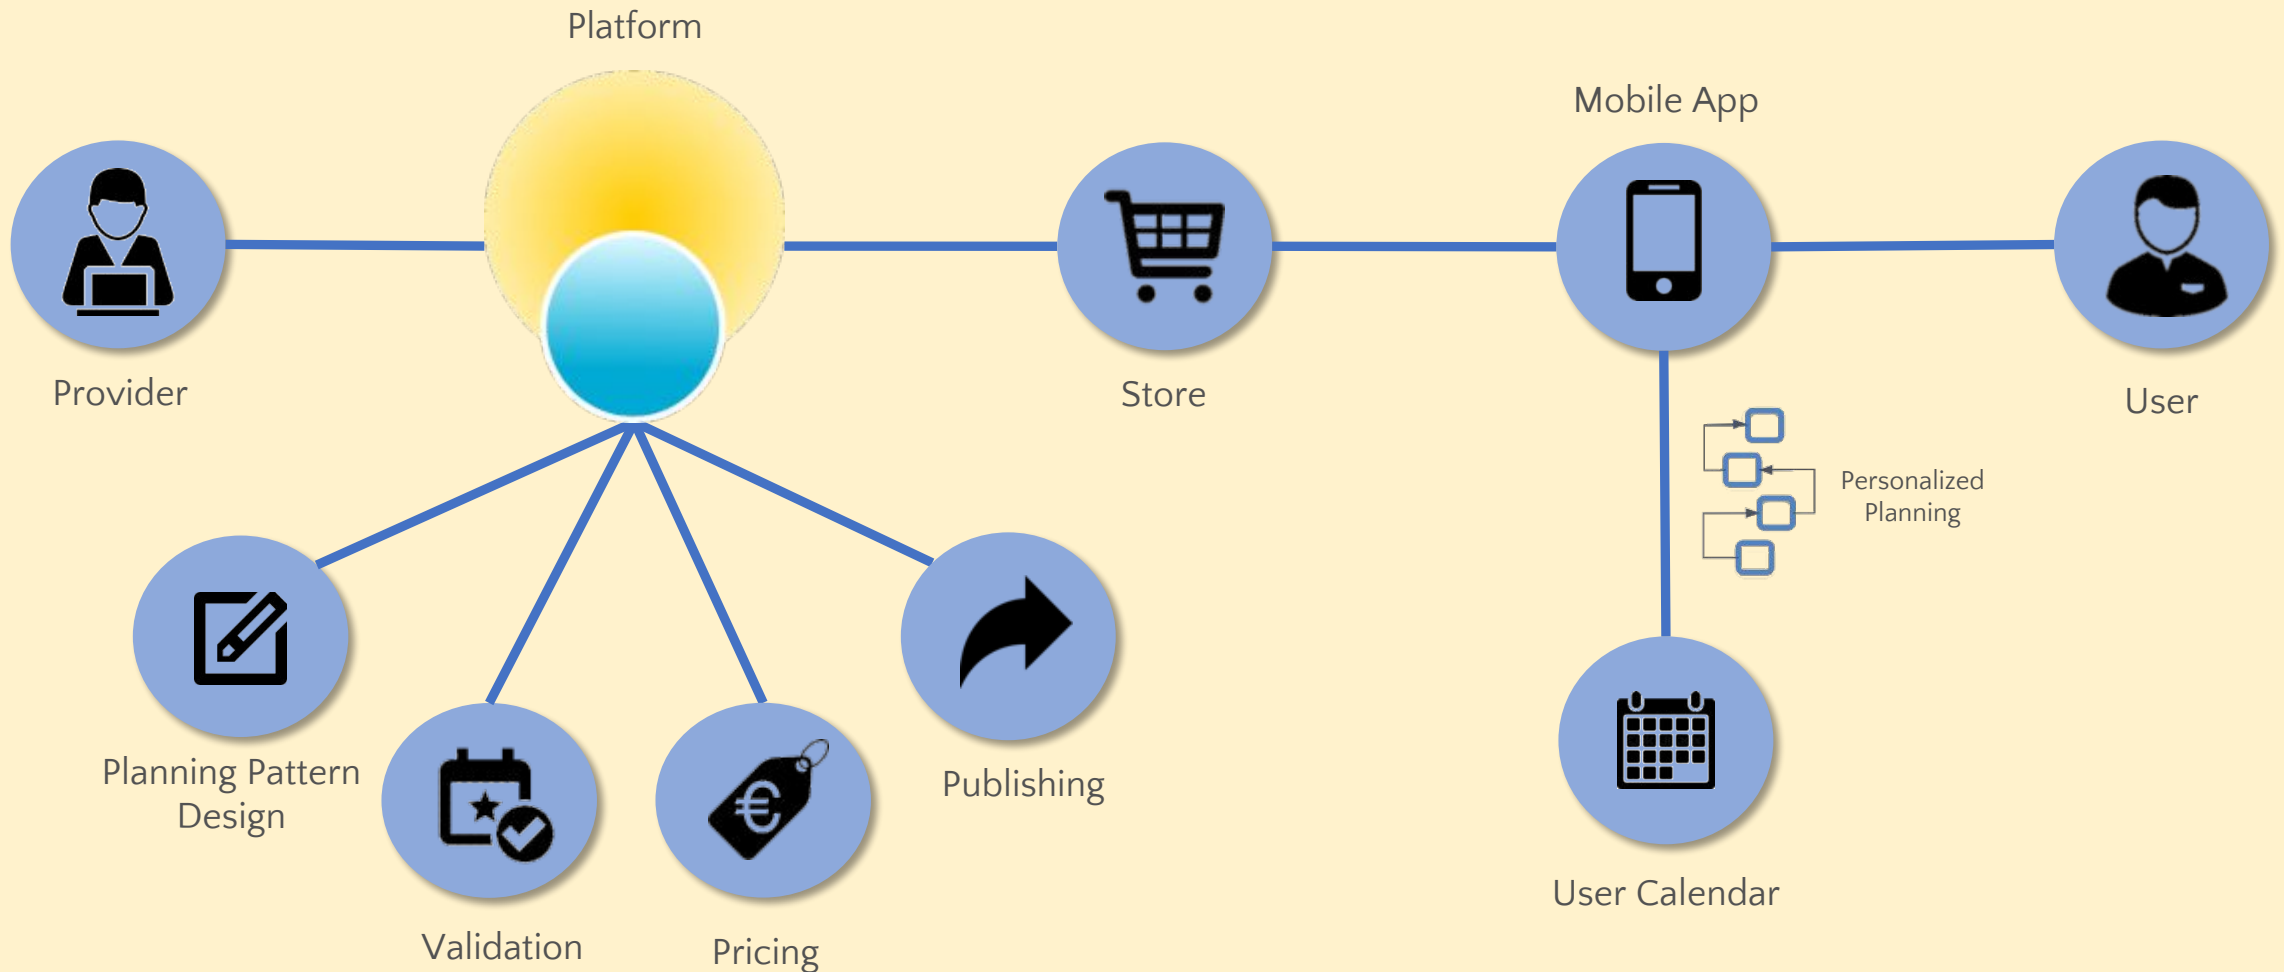

A **personalized** planning
for my own need

**Sense of
control**

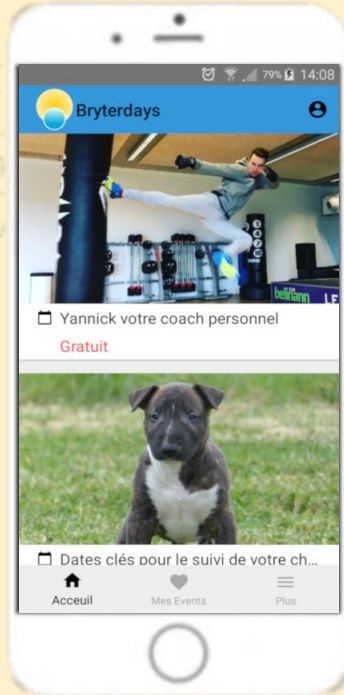

The Solution

Bryterdays the Personalized Planning marketplace

The Product

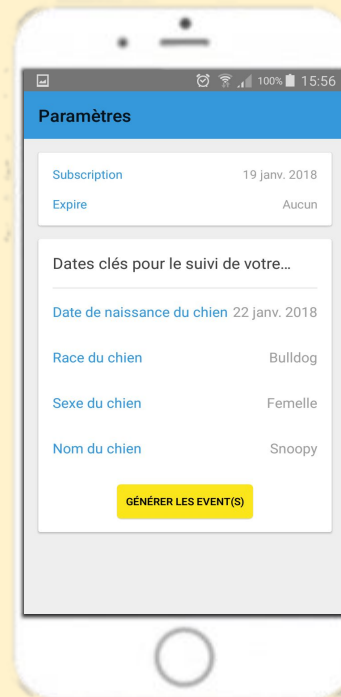

Follow the
magical
recipe...

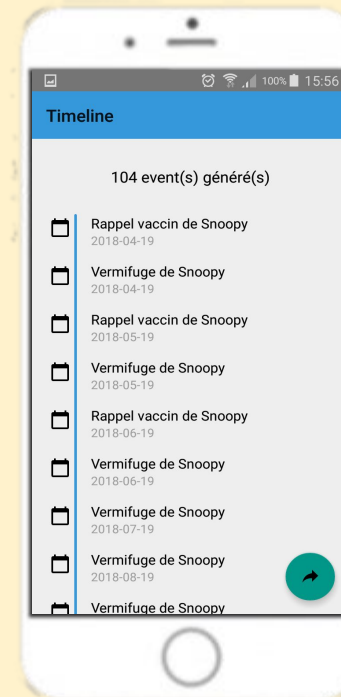

Browse available
designed plannings

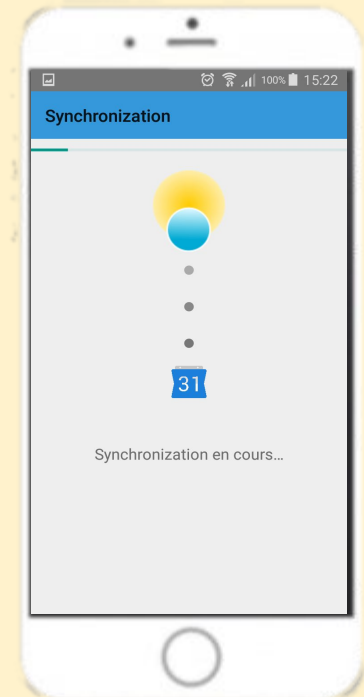

Choose and
install

Set required inputs

Preview generated
events of your
planning

Synchronize your
planning with a
calendar of your choice

Targeted Business Model

10% fee for every payable
provider planning

Contracted staff for custom
provider planning developments

Dedicated tools for premium users to
sustain and help providers business (store
visibility, recommendations, market
trend,...)

Go-to-Market Plan

ORGANIC GROWTH

- Target providers in-need to preserve Store offer-and-demand balance
- Easy-to-use back office

SEGMENTATION

- Small businesses with low native digital emphasis
- Businesses where support activity has a huge impact on business-as-usual
- Deep human related interaction

Eg: Dog breeder, Personal coach, Wedding planner, Real Estate agents...

MARKETING

- Partner acquisition channel
- Plannings provided by Bryterdays
- Customer word of mouth
- Local campaigns

Vision

MID-TERM

- Self Office (Visual Studio, Reporting, Customer surveys,...)
- Bryterdays Board (Unified planning, Social Networking, Data Privacy,...)
- Planning events enrichment (Suggestions, Geolocation, Multimedia,...)

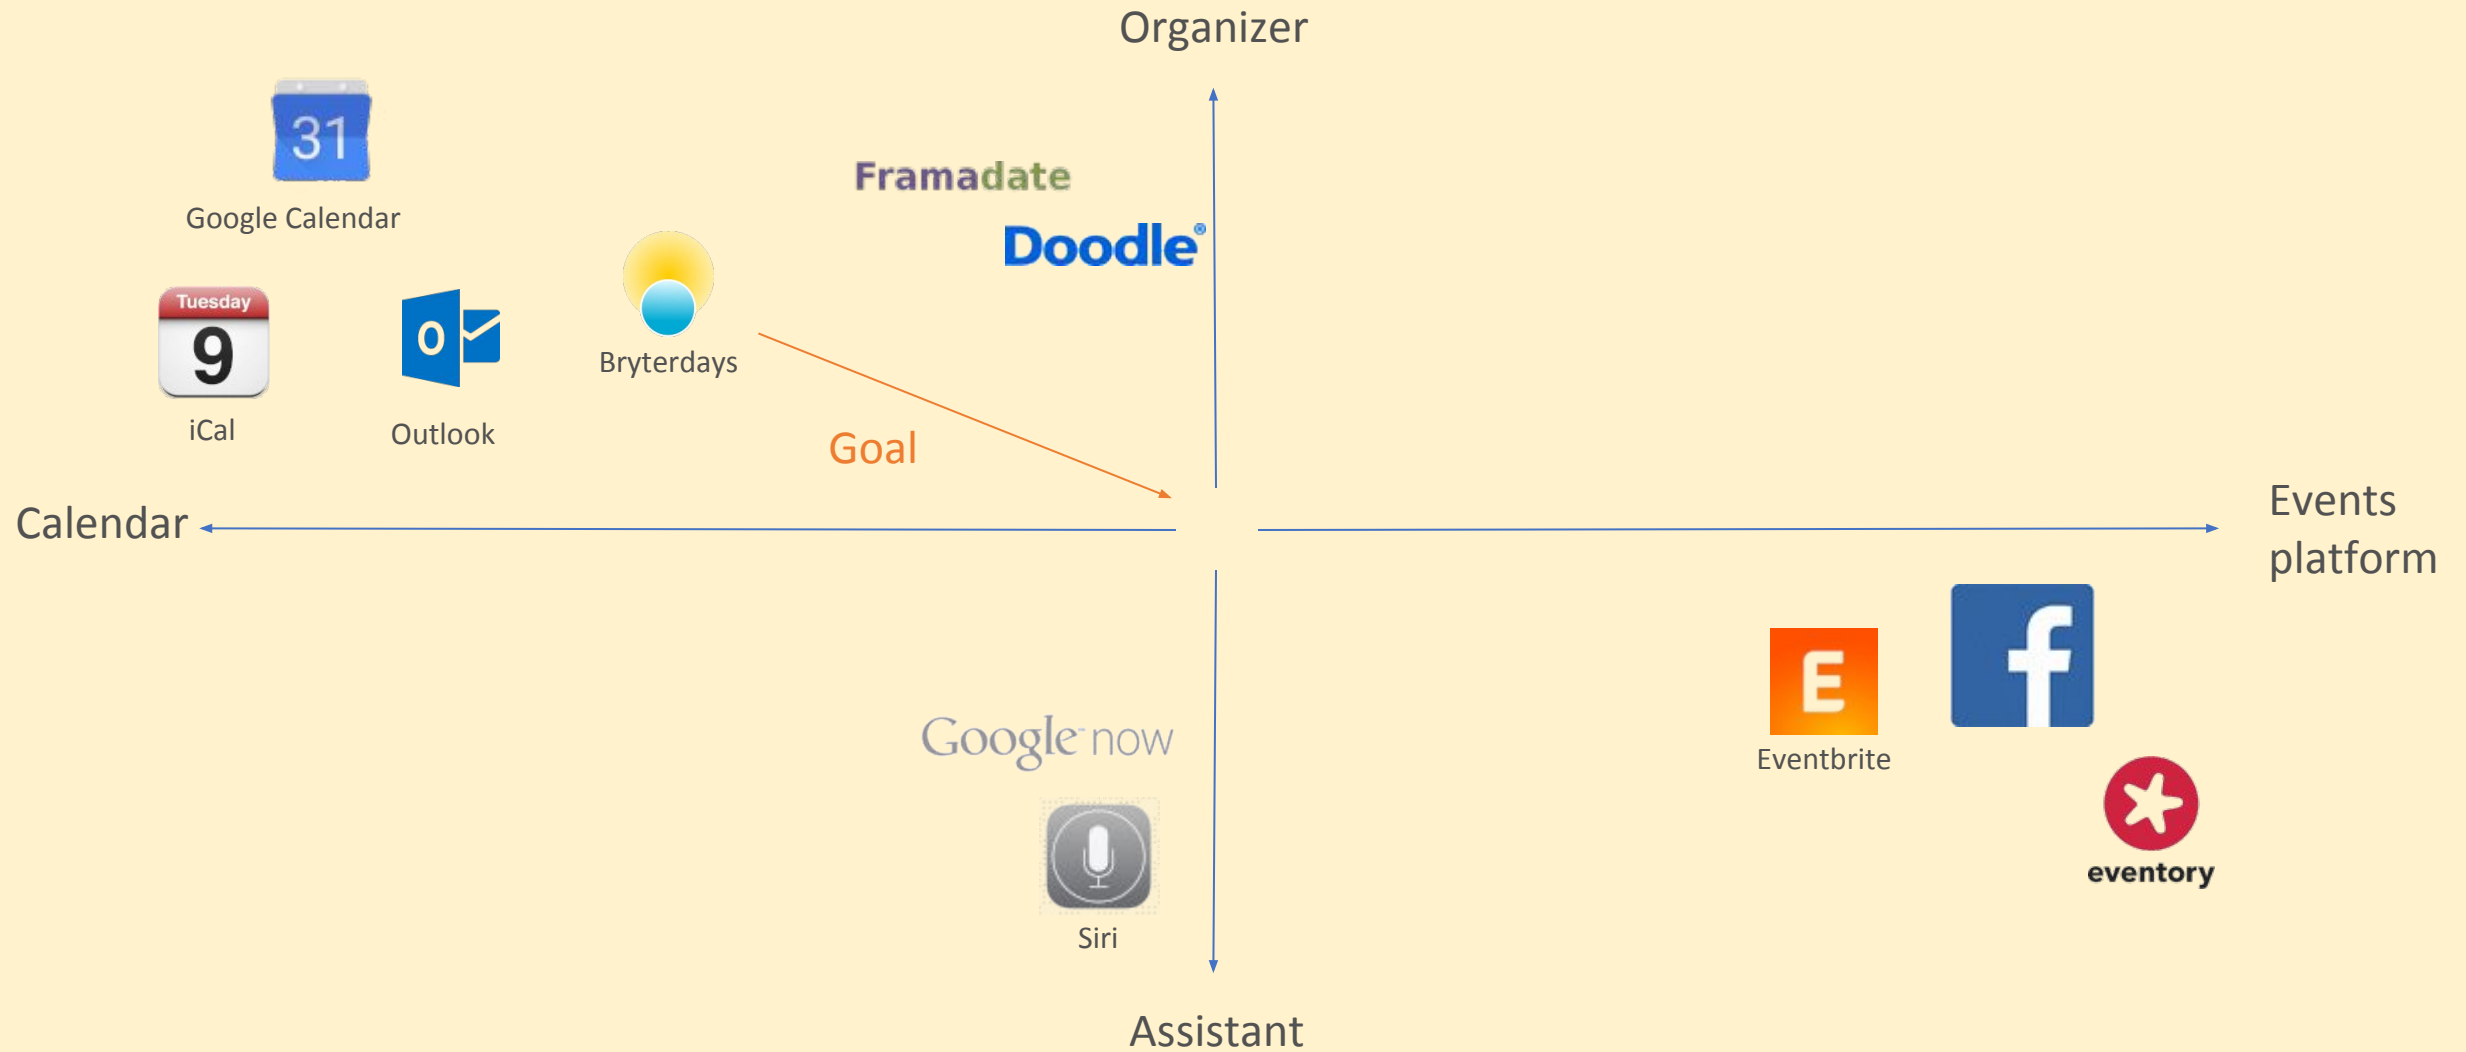

LONG-TERM

- Automated organizer
- Internet Of Thing
- Bryterdays at the service

GOAL

- Personal Assistant (AI)
- Events oriented Operating System
